RE: **Shoreland Permit NHDES File Number: 2024-00512.**

Mr. Faidell,

The PRLAC understands that the work done for this permit failed after a high flow event in the Piscataquog River in 2024 or 2025. We would like to know if the permit conditions require that the applicant repair the damage as per the designs provided for the PBN application or other designs that have not yet been developed. The PRLAC is very concerned about ongoing erosion to the work and water quality issues related to that.

PRLAC brings years of river-restoration expertise and detailed, on-the-ground understanding of this specific site. We stand ready to support NHDES and the applicant in developing durable, site-appropriate repairs and long-term solutions.

Sincerely,

John Magee

Chair, PRLAC
